SRI HRUDHYA MEDIGA

B.Tech. - CSE - Data Science

srihrudhyamediga@gmail.com | Hyderabad, Telangana, India - 500008 | github.com/hru-med

PROFESSIONAL SUMMARY

Aspiring Data Scientist / AI-ML Engineer with hands-on experience across the data science and applied AI lifecycle — from building explainable ML models to deploying full-stack analytics platforms and Generative AI / RAG-based applications. Proficient in Python, SQL, and modern data tooling (Power BI, Pandas, NumPy), with practical exposure to LLMs, RAG, LangChain, prompt engineering, and agentic AI workflows. Comfortable working end-to-end: data cleaning, exploratory analysis, model building, and shipping usable products.

KEY EXPERTISE

Programming Languages: Python, SQL, Java, C
Data Analysis & Visualization: Microsoft Excel, Power BI, Pandas, NumPy, Matplotlib, Recharts
Database Technologies: MySQL, DBMS, Data Warehousing, Data Mining
Statistics & Analytics: Statistics, Data Cleaning, Exploratory Data Analysis (EDA)
AI & Modern Analytics: ML, LLMs, Generative AI, Prompt Engineering, RAG, LangChain, AI for Analytics, Agentic AI & AI-Assisted Development
Developer Tools: Git, GitHub, VS Code, Jupyter Notebook, Google Colab, Google Antigravity

EDUCATION

G. Narayanamma Institute of Technology and Science **2023 - 2027**
B.Tech. - CSE - Data Science | CGPA: **8.49 / 10**

Narayana Junior College **2023**
12th | TSBIE | Percentage: **92 / 100**

SVM Central Public School **2021**
10th | CBSE | Percentage: **72 / 100**

INTERNSHIP

AI/ML Engineer Intern – Truviq Systems
TruHire – AI-Powered Recruitment & Resume Matching System

React | FastAPI | Supabase Auth | Gemini API | NLP

- Developed a full-stack AI-powered recruitment application that streamlines candidate screening by matching resumes against job requirements using NLP and semantic similarity scoring
- Implemented resume ingestion, candidate search, match-score-based filtering, candidate profiles with resume previews, and automated, role-specific recruitment email workflows
- Integrated backend APIs, database management, and caching to improve retrieval efficiency and application performance

PROJECTS

PrediX – AI-Based Prediabetes Risk Prediction System
Mentor: Mrs. Ch. Veena | **Team Size:** 4

Python | Pandas | NumPy | Scikit-learn | XGBoost | Streamlit | React

- ML platform predicting Type 2 Diabetes progression for Indian youth (15–25 yrs); achieved R^2 of 0.91, MAE of 0.11 years
- Used XGBoost with SHAP explainability; engineered Metabolic Risk Score and Lifestyle Risk Score features
- Deployed via Streamlit + React/TypeScript
- **Achievement:** 1st Prize – Best Mini Project at institutional mini-project presentation

VisionAI – AI-Driven Self-Calibrating Vision Screening
Mentor: Mrs. Bhagyashree | **Team Size:** 4

Python | OpenCV | MediaPipe | React.js | Node.js | HTML | CSS | NumPy

- Web-based remote myopia screening using facial landmark detection for real-time distance & posture estimation
- Dynamically scales optotypes based on user distance; voice-based interaction for hands-free accessibility

DataLens – AI-Powered Business Analytics Dashboard **Live Demo | GitHub**
Mentor: Individual Project | **Team Size:** 1

React.js | FastAPI | Python | PostgreSQL | Pandas | Recharts | Gemini API

- Designed and independently deployed a full-stack analytics platform (React/Vite frontend on Vercel, FastAPI backend on Render, PostgreSQL) with JWT-based authentication
- Backend auto-detects dataset column types and generates interactive dashboards with trends, averages, and top-category breakdowns
- Integrated Google Gemini to auto-generate AI-written executive summaries and insights from uploaded business data

PolicyAssist – RAG Agent for Loan & Insurance Policy Explanation
Mentor: Individual Project | **Team Size:** 1

Python | FastAPI | RAG | ChromaDB | Gemini API | React.js | Vite | Tailwind CSS

- Built a RAG agent that ingests home loan agreements and health insurance policy PDFs to answer questions like "am I covered for X" or "penalty for early repayment"
- Implemented FastAPI backend with ChromaDB vector search and cross-encoder reranking for accurate, grounded document retrieval
- Integrated Gemini/Claude LLMs to generate context-aware answers; built React + Vite + Tailwind frontend

POSITIONS OF RESPONSIBILITY

Class Representative – Served as a liaison between students and faculty, facilitating effective communication, addressing student concerns, and coordinating class-related activities. Developed strong leadership, communication, and organizational skills through this role.

Member – Nrityastra (Dance Club of GNITS) – Actively participated in dance performances, practice sessions, and club events, collaborating with team members to organize and perform in cultural programs.

Coordinator – Philanto (Photography Club of GNITS) – Coordinated club activities and photography events, working closely with team members to organize workshops, competitions, and event coverage.

CO-CURRICULAR & EXTRA-CURRICULAR ACTIVITIES

Co-curricular: Event Management, Club Coordination, Student Leadership
Extra-curricular: Dance, Singing, Writing, Volleyball
Personal Interests: Photography, Writing
